

Application: Stand-alone unit for powering hydraulic equipment

- Features:
- 100 HP 600/3/60 marine duty motor c/w IP56 treatment
 - Bell housing with flexible shaft coupling to pump
 - Open loop hydraulic circuit for LARS and winch
 - Hydraulic reservoir, with pump mounted in-tank
 - Surround lift frame and bolt plates for mounting on deck
 - Surround frame designed and manufactured in accordance with DnV standards
 - Motor starter panel
 - Water to oil Hydraulic oil cooler (seawater supply)
 - Oil Heater
 - Oil Level Sight Gauge

Specifications / Performance	
Electric Motor	100 HP, 600V / 3 ph / 60Hz
Main pump	Variable disp., open loop, 44.5 GPM, 3200 PSI
Reservoir capacity	135 US Gallons
Dimensions (est.)	3.6 ft W x 4.8 ft L x 7.2 ft H
Dry Weight (est.)	2900 lbs.
