

Application: Traction Winch

- Features:
- All Steel Construction
 - Bent axis piston motor with planetary gear drive
 - Speed/directional control at winch station with payout and speed display
 - Spring applied, hydraulically released failsafe multi-disc brake
 - Large diameter drum barrels for improved cable life (880 mm)
 - Contoured bull wheel liners
 - Hose ends and adapters are wrapped in a petroleum impregnated tape for corrosion protection
 - Zinc phosphate primer and epoxy gloss topcoat

- Options:
- Proportional single lever joystick, spring centered return to neutral

Specifications / Performance with 2 x 150 hp (112kW) HPU	
Safe Working Load	15 mT
Low Speed Range	15 mT @ 0-0.9 m/s (2 pumps running)
Low speed Range	15 mT @ 0-0.45 m/s (1 pump running)
High Speed Range	8 mT @ 0-1.6 m/s (2 pumps running)
High Speed Range	8 mT @ 0-0.8 m/s (1 pump running)
Unit Weight	7500 lbs
